Request For Continued Examination With Submission Filed Under 37

CFR 1.114 Which is Not Fully Responsive

Receipt is acknowledged of a request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e) and a submission, filed on 9/1/2006. The submission, however, is not fully responsive to the prior Office action because Applicants cannot file an RCE to obtain continued examination on the basis of claims that are independent and distinct from the claims previously claimed and examined as a matter of right (i.e., Applicant cannot switch inventions). See 37 CFR 1.145. As stated in the Advisory Action dated 8/9/2006, the claimed invention has been impermissibly changed from a ceramic matrix composite laminate, a final product having been cured, to a PREFORM for constructing said ceramic matrix composite laminate. The latter is an uncured article that serves as an intermediate to the finished composite laminate.

Since the submission appears to be a bona fide attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period for reply supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew D. Matzek whose telephone number is (571) 272-2423. The examiner can normally be reached on 8:30 am - 5:00 pm.
